Our **VISION**

“To be a **global leader** of sustainable agricultural **solutions**”.

Passion for **AGRICULTURE**

It all began in **1964** when brothers Antonio, Egidio and Giorgio Maschio started a business as manufacturers of **rotary tillers** in Campodarsego, a small village in Padua.

Quality has always been one of the distinguishing features of the **products**, first recognised **nationally** and then at the **international** level.

Export to neighbouring **markets** has allowed exponential **growth**, first in **Europe**, then in the rest of the **world**.

Thanks to important **acquisitions** over time, the growth of the **brand** and of

the commercial network, nowadays **MASCHIO GASPARDO** offers a **complete range** able to satisfy all the needs of farmers.

The product portfolio consists of ploughs, subsoilers, equipment for minimum tillage, rotary tillers, harrows mulchers, flail mowers, hedge cutters, precision seed drills, cereal seed drills, combination seeders, seed drills for vegetables, fertiliser spreaders, sprayers, mowers and round balers with fixed or variable chamber or combined and bale wrappers.
